2026 FEBBRAIO - Inchieste UNIPLAST

ISO/TC 61 “Plastics”

- ISO/CD 21368-1 Adhesives — Guidelines for the fabrication of adhesively bonded structures — Part 1: General requirements
- ISO/CD 25867 Plastics — Method for artificial accelerated photoageing using medium-pressure mercury vapour lamps
- ISO/DIS 877-3 Plastics — Methods of exposure to solar radiation — Part 3: Intensified weathering using concentrated solar radiation
- ISO/DIS 13071 Tensile test of fibre reinforced monolayer flat specimens
- ISO/DIS 15270-1 Plastics — Guidelines for the recovery and recycling of plastics waste — Part 1: General principles
- ISO/ DIS 23292 Plastics — A method for measuring the amount of bacteria in the hydrosphere biodegradability assessment
- ISO/DIS 24899 Plastics — A method for extraction of microplastics from compost samples
- ISO/FDIS 19717 Plastics — Differential scanning calorimetry (DSC) or thermogravimetric analysis (TGA) — Model-free kinetics based on the non-linear incremental isoconversional method

ISO/TC 138 “Plastics piping systems and ducting systems”

- ISO/DIS 15494.2 Plastics piping systems for industrial applications — Polybutene (PB), polyethylene (PE), polyethylene of raised temperature resistance (PE-RT), crosslinked polyethylene (PE-X), polypropylene (PP) — Metric series for specifications for components and the system
- ISO/DIS 19251-1 Thermoplastic pipes for the conveyance of fluid — Hydroaxial tension (HAT) method — Part 1: Determination of the longitudinal tensile strength of pipe or pipe/pipe or pipe/fitting assemblies
- ISO/DIS 19251-2 Thermoplastic pipes for the conveyance of fluid — Hydroaxial tension (HAT) method — Part 2: Determination of the resistance of pipe/pipe or pipe/fitting or fitting/fitting assemblies to longitudinal stress rupture
- ISO/FDIS 11301-1 Piping systems for rehabilitation of underground gas supply networks - Part 1: Polyethylene (PE) material

CEN/TC 155 “Plastics piping systems and ducting systems”

- DEC 1626 NWIP for rev EN 12119:1997 “Plastics piping systems — Polyethylene (PE) valves — Test method for resistance to thermal cycling”
- FprEN ISO 11301-1 “Piping systems for rehabilitation of underground gas supply networks - Part 1: Polyethylene (PE) material (ISO/FDIS 11301-1:2026)”

CEN/TC 249 “Plastics”

- Draft Decision 1002 - Adoption of a NWI prCEN/TR 16862 rev “Plastics welding supervisor - Task, responsibilities, knowledge, skills and competence”

- Draft Decision 1003 - Adoption of a NWI 12814-3 rev “Testing of welded joints of thermoplastics semi-finished products - Part 3: Tensile creep test”
- prEN 438-8 High-pressure decorative laminates (HPL) - Sheets based on thermosetting resins (usually called laminates) - Part 8: Classification and specifications for design laminates
- prEN ISO 877-3 Plastics - Methods of exposure to solar radiation - Part 3: Intensified weathering using concentrated solar radiation (ISO/FDIS 877-3:2026)
